Balance on hand January 31, 1932	\$ 57.03

The Commission find a continually increasing use and enjoyment of the Park by the Public and feel that the appropriations made by the Town are well worth while.

The past summer the road was oiled and should be again this year. The appropriation was expended for the oiling and in general care and upkeep of the grounds.

REPORT OF LIBRARY TRUSTEES

During the year 1931 the library has sent out 93826 books and magazines, an increase of 5335 over last year. There has been a slight falling off in fiction reading but larger gains in other classes, especially useful arts, biography and literature. There has been, too, an increased use of the children's department.

1143 volumes have been added of which 277 were gifts.

In this time of economic depression many more people have turned to reading as a profitable way of spending their enforced

leisure. Many are doing some serious study to be better prepared for jobs when they are to be had. The need of books and magazines is greater now than ever before. Towns and cities throughout the country are being urged to keep up the appropriations for books and service and maintain the libraries in their full efficiency in this period of special need.

The present library levy which is about 63 cents per capita is only a little over half the minimum amount considered necessary for good service.

The use of the reading and reference rooms has grown—no record has been kept but it is safe to say that the number has been twice that of last year.

The usual activities have been carried on and books sent regularly to the hospital, the Francis J. Tolles Home, the County Home and to the schools. There are small deposits in different parts of the town which supply several families with books.

Through the kindness of Mr. Kellogg and the local teachers a Story Hour has been instituted as a regular Saturday morning feature.

The Historical Room has been visited by as many if not more people than usual.

A few long needed Polish and Russian books have been bought—a collection which should be added to yearly.

Two library conferences have been attended, the A. L. A. Conference at New Haven and the N. H. L. A. at Hanover.

Good Book Week was observed with an exhibit of books from The Carolyn Stoughton Book Shop and a reading contest for which prizes were given for the two best lists.

Among the gifts special mention should be made of the articles given to the Historical collection by the will of Miss Mary E. Partridge.

Items of historical interest and 125 books given by Mrs. Mary E. Hall from the Mary E. Partridge Estate.

Petrified wood from The Petrified Forest in Arizona given by Mr. John L. Farwell.

Oil painting "Telemarque", given by Miss Eliza Stevens Pease of Windsor, Conn.

Portrait of Paren Stevens given by Mr. A. B. Kellogg.

Books and minerals from Mr. Irving Chellis Story.

Album and Claremont photographs given by Mrs. Mary S. Ide and Mr. Geo. A. Hale.

50 books from Miss Louise Dyer.

Catalogue of Claremont Seminary 1850 from Mrs. Frank Brown.

Following is a list of people to whom we are grateful for other gifts: Mrs. Harriet Bartlett; Mrs. Rosamond Bryant; Mrs. Ida Currier; Mr. James Ellis; Mrs. Lucia Ferguson; Miss Sarah Gilmore; Mr. H. B. Glidden; Master Frank Hawkins; Rosemary Heyer;

Mrs. Stella F. Hutchins; Mrs. Alta Johnson; Miss Emily Lewis; Mr. Edgar L. Lord; Mrs. F. Jewett Moore; Mr. Morrison Poole; Mrs. Samuel Putnam; Miss Margaret K. Sanborn; Mrs. Ernest Simoneau; Mr. Emile Thibodeau; Mr. Geo. C. Warner; Mr. Benjamin Welch; Western Union Telegraph Co.; Mrs. Bessie Whipple; Mr. Robert M. Winn; Mr. Fred F. Young.

Thanks are due the local papers for the gift of their weekly issue and for printing library notes.

Chief Engineer's Report

To the Board of Selectmen:

A total of 17 bell alarms was received at the Central Fire Station for the year ending January 31, 1932. Still alarms for the same period totaled 184, or a grand total of 201 calls made upon the Fire Department over the twelve-month period. This is a gratifying decrease over the total for the previous year, which including both bell and still alarms was 269. Few of the fires were of a major nature, and prompt notification by telephone in many instances served to avert serious conflagrations.

The seventeen bell alarms for the year were as follows:

Feb. 15—Box 13, 11:45 a. m., Water Works Office.

Mar. 7—Box 13, 10:10 p. m., Claremont National Bank.

Apr. 15—Box 14, 6:18 p. m., Beaudry block.

Apr. 16—Box 57, 8:50 a. m., Delia Hughes home near Davis street.

Apr. 19—Box 55, 11:30 a. m., W. A. Rice home, Bailey avenue.

May 9—Box 22, 5:40 a. m., J. W. Burbank shoe repair shop, Main street.

July 5—Box 57, 1:50 p. m., Ernest White home, Winter street.

July 22—Box 22, 11:20 a. m., false alarm, Main street.

July 25—Box 23, 7:00 a. m., Sullivan Machine Shop.

July 30—Box 46, 3:45 p. m., Antonio Melsky home, West Terrace street.

Aug. 5—Box 8, 2:25 p. m., Napoleon LaClair home, Unity road.

Sept. 10—Box 22, 12:50 a. m., Claremont Waste Manufacturing Company.

Oct. 7—Box 22, 4:05 a. m., Walter Cemel block, Main street.

Nov. 8—Box 23, 9:30 a. m., Herman Holt house, River street.

Dec. 17—Box 56, 6:25 p. m., Herbert Stone home, Melrose street.

Jan. 15—Box 13, 8:40 p. m., Quimby & Quimby block, Main street.

The report of all brush and woodland fires will be found under the Forest Fire Wardens report.

HYDRANTS

Two new hydrants have been installed on Maple avenue during the past year.

FIRE ALARM SYSTEM

The fire alarm system has been maintained at its usual high standard of efficiency following installation of the new elements in the battery room, and is functioning satisfactorily. The present number of fire alarm boxes has been continued in operation and no new boxes have been installed.

RECOMMENDATIONS

The Claremont Fire Department is now adequately equipped to care for all emergencies, and I have no recommendations to make for new apparatus or additional outlay of any kind, beyond the usual appropriations necessary to maintain the Department at its present level of efficiency.

REMARKS

The past year has seen Claremont's fire loss once more kept at a gratifyingly low level, thanks to fine cooperation by members of the Department and townspeople in general. Discovery of many blazes in their incipency has enabled the Department to check potentially serious fires before they have grown to dangerous proportions. Continuation of this alertness and a determination on the part of every property owner to reduce fire hazards to a minimum is needed if the town is to continue its excellent record in this respect. I have nothing but praise for the splendid spirit shown by all department members and by the citizens of Claremont in enabling me to make this favorable report.

C. E. SEARS, Chief Engineer.

Fire Warden's Report

For the Year of 1931

To the Selectmen and Citizens of Claremont, N. H.:

I would respectfully report eleven fires during the past year. These fires were handled at a cost of \$149.19.

Three of these fires were Boston & Maine R. R., and the cost has been or will be paid by the R. R. Co., \$55.45, leaving a balance of \$93.74, one half of this is paid by the State. A cost to the Town being \$46.87. There were several grass fires, which were extinguished by the men from the Fire Station.

I wish to thank the people of the town for their cooperation and assistance.

Respectfully submitted,

P. J. SHERIDAN, Forest Fire Warden.

Health Officer's Report

To the Honorable Board of Selectmen:

I herewith submit the annual report of the health department for the year ending January 31st, 1932.

The health records of the year show a remarkable decline in practically every communicable disease, and the highest point reached in health attainment in the history of the department, and this in spite of the fact, that this community as well as the entire country has been enduring one of the worst periods of economic and industrial depression in history.

The natural inference would be, that a greater amount of sickness would prevail during such a depression than during prosperous times. The answer to this question of health conditions, must be, that the great majority of people entered the depression in better physical condition, better educated in regard to health habits, and the matter of disease prevention than ever before.

The following communicable diseases were reported during the year:

Chicken pox	4
Diphtheria	4
Influenza	2
Measles	3
Mumps	4
Pneumonia	5
Poliomyelitis	3
Scarlet fever	12
Tuberculosis	20
Undulant fever	1
Whooping cough	13
Venereal diseases	49

TUBERCULOSIS

Tuberculosis constitutes one of the greatest of the health problems with which a community has to deal, and although remarkable progress has been made in the control of this disease, there still remains much to be done, that calls for the continued and united activity of every community for the further continuance of this work.

Miss C. M. Gobie, R. N., acting for the New Hampshire Tuberculosis Association has charge of the work in Claremont as well as the entire county.

The following is Miss Gobie's report of the year's work of the clinic and nursing service in Claremont.

No. of clinics held	8
No. of persons examined at clinics	302
No. of new persons examined at clinics	154
No. of new positive cases of tuberculosis	20
No. of new suspicious cases of tuberculosis	27
No. of patients whose tuberculosis has become arrested	3
No. of patients apparently cured, discharged	7
No. of patients re-examined, found definitely improved	117
No. of patients sent to sanatoria	6
Positive tuberculosis cases now under supervision.....	150
Suspicious tuberculosis cases now under supervision	75

The Division of Maternity, Infancy and Child Hygiene, of the State Board of Health, Miss Carriel, State Public Health Nurse as local supervisor, is one of the important factors in carrying on the public health work and of great value to mothers and children in a community receiving its assistance.

In addition to the regular work of this Division during the past year, a very successful child's health conference was held in Claremont, Oct. 21-22 for children of pre-school age.

At this conference 198 children were given a complete physical examination by local physicians. Of the children examined 43 were found to have no defects, while 155 were found to have defects. Aside from the direct benefit derived by those having these examinations, the work presents a definite educational value in teaching the importance of a yearly health examination by every one.

DIPHTHERIA

This scourge of childhood has already become a minor item in the morbidity records. Nevertheless, even the present low percentage is inexcusable for a disease, from which we know how to protect our children. Diphtheria can be stamped out altogether, and this will come to pass when all children are immunized against it.

The Board has continued its campaign for the prevention of diphtheria, concentrating in its efforts during the early months of the fall, because preventive inoculations at this time produce an immunity effective for the winter months during which diphtheria is most apt to appear. Two hundred and sixty-one children have been inoculated, without charge to the parents. The results of these successive years of preventive inoculations are very gratifying, as can be seen by the small number of cases of diphtheria reported. The value of immunity to such a dire disease cannot be measured, for the value is far-reaching, through economic aspects, as well as those of health and peace of mind. At times like these, when retrenchment in all expenses is so necessary, it would seem

that such intangible things as preventive health measures might be eliminated, and there is much to support such argument, but there is much more on the side of maintaining that which has taken so many years to build up, a nearly perfect immunity to diphtheria in our town, so that it is the Board's hope that funds may be available to continue this valuable work during the coming year.

VACCINATION

The Public Laws of the State require that all children attending the public or private schools, shall be vaccinated against small pox, unless declared physically unfit by a licensed physician.

This law has been enforced in Claremont and a total of nearly three hundred children were vaccinated at the beginning of the school year, thereby giving the schools very nearly 100 per cent immunity against small pox.

SANITATION

Food sanitation is the foremost item in this division and much time has been given to the inspection of stores and other establishments where foods and food products are handled or sold.

A general compliance with regulations governing the sale and handling of foodstuffs by the dealers has been noted.

Fruit stores show a marked improvement in their observance of those regulations regarding the outside display of fruits without adequate protection from dust and dirt, and dealers are to be commended for the co-operation in doing away with the hitherto troublesome conditions, in this line of business.

Over ninety complaints have been received from citizens relating to various unsanitary conditions and nuisances.

The majority of these complaints arise from the practice of a comparative few unthinking, or careless persons who make a practice of dumping rubbish and other waste material in any spot or place that happens to be convenient to themselves, creating thereby an unsightly, and oftentimes a real nuisance in the locality.

Disposal of sewage matter is a source of many complaints, and is one of the most troublesome problems to contend with, due to the fact that the town is lacking in proper sewage facilities.

All such complaints have been investigated and disposed of so far as possible under existing conditions, but this trouble can never be settled in a satisfactory manner, until some system of public sewage disposal is adopted by the town.

WATER ANALYSIS

Eight samples of water from the Grannis system, a public

supply, were sent to the State Laboratory for analysis during the year; also analysis was made of water from twenty private wells and springs, from rural districts.

Respectfully submitted,

WILLIAM P. PRESCOTT Health Officer.

Report of Building Inspector

For the Year Ending December 31, 1931

To the Honorable Board of Selectmen:

Building business has been rather quiet during the past year.

The State Armory and Government Post Office are the only buildings of any size that were started during the year. There were 258 permits issued to December 31, 1931. There were permits issued for 39 garages, 20 houses and 1 store, some of which have not as yet been completed. The remaining permits have been for remodeling, etc. The estimated cost has been \$230,133.75 for the building business of the year.

Respectfully submitted,

W. E. ROUNDY, *Building Inspector.*

Report of Milk Inspector

To the Selectmen of the Town of Claremont:

The work of milk inspection has been carried on about as usual as far as general routine is concerned.

No cattle supplying milk to the Town of Claremont have been found to have tuberculosis this year, neither has there been any disease traced directly to the milk supply.

Some work has been done testing milk to find pus germs. Two cows have been found so infected that their milk has been condemned. This work is new to us and in cooperation with the local hospital all milk showing a high count from the State Laboratory will be examined separately here. This condition is the cause of Septic Sore Throat and of course it is very important that no such milk gets on the market.

Under the State Board of Health laws going into effect July 1, 1931 more rigid farm and dairy inspections have been made. Mechanical cappers have been installed in dairies making over 40 quarts daily. Most of the dairies have their cows hind quarters clipped in order that cleaner milk can be produced.

One dairyman has made application for a permit to produce "Grade A" milk and will, no doubt, be in operation by the time this report is out. That will be the first "Grade A" sold in Claremont and it is hoped that others will follow, in fact another application was received today and it is hoped it will be in operation in the early spring.

The one pasteurization plant is in operation and everything going on smoothly, having been passed by the State Board of Health.

Dairymen have cooperated very well with the inspector and conformed with the new laws, with few exceptions, and those exceptions will be taken care of according to law, better than was expected. With cut prices and bad collections money for new equipment comes hard but in most cases it has been procured.

I would like to suggest that the people of Claremont take trips out to the farms producing their milk and see under what conditions their milk is produced, then they will know for themselves that it costs money to produce good milk. The producers are required to keep cattle clean, sterilize utensils, have proper places to cool their milk and altogether are under heavy expenses and unless they get a fair price for milk cannot possibly keep

those things up and if they do not, under our new laws, have simply got to stop selling. I am sure any producer who is really trying to make good milk and keep things clean will welcome your visits at any time and explain their routine to you.

Respectfully submitted,

L. R. HAUBRICH, V. M. D., *Milk Inspector.*

State Forester's Report

To the Chairman,
Board of Selectmen,
Claremont, N. H.

Dear Sir:—

In accordance with the terms of an agreement executed between the town and State Forestry Department, we are handing you herewith a statement indicating the results of White Pine Blister Rust Control carried on in your town during the season of 1931.

The report is divided into two sections: (1) a financial statement, and (2) a map upon which has been indicated the sections of the town worked in 1931, as well as those areas covered in previous years.

As is shown by the financial section, the State increased the town appropriation 25 per cent. Supervision of the crew, which includes the time necessary in determining the control areas, locating boarding places for the crew, inspection of work, and many other details which arise in connection with control measures, was handled by the District Blister Rust Agent. As this individual is an employee of the U. S. Department of Agriculture, no charge for his services was made against either the town or state monies. Thus, the town and state appropriations were used solely in the location and destruction of currant and gooseberry bushes, the plants which spread this disease from infected to healthy white pines.

Since in work of this nature it is practically impossible to cover all of the many details, it is hoped that another season a plan may be worked out which will prove successful in securing inspection of control methods by more of your fellow townsmen.

Respectfully yours,

JOHN H. FOSTER, State Forester.
